Public Disclosure

Public disclosure and participation are the principal steps in POWERGRID's project planning and implementation. Our corporate policy is aligned to minimize communication gap between the company and its stakeholders, thereby ensuring long-term symbiotic relationship.

Consultations are carried out during construction of transmission lines and substations. In cases of securing land through willing-buyer willing-seller agreements, disclosures and consultations begin much before the negotiation meeting.

Transmission line Construction

- Public Consultation for Screening, Assessment and Route/Site finalization
- Consultation at individual and community level
- Resolution of issues raised during initial screening and walkover surveys
- Affected person(s) compensated as per provisions/Issues Resolved

Substation Construction

- Public Consultation as per Land Acquisition Act
- Social Impact assessment of Land acquisition activity based on socio-economic survey
- Compensation designing in consultation with people
- Meetings with PAPs to develop RAP
- Compensation to PAP

Modes & techniques of Public Consultation:

- Project Coordination Committees
- Public Meetings
- Informal group meetings
- Site Visits
- Press releases, inviting comments
- Local planning visits
- Brochures, pamphlets
- Public Display
- Ambassador or Representative
- Field offices
- Response to public enquiries
