<td></td>
<td>Are you adhering to process updated in PGcil SUSTAINABILITY REPORTS 2008-09, 2009-11, 2013-15 and 2015-17 for all transmission projects. As per our knowledge, PGcil may not conduct any Informal group meetings for transmission projects through it shows in process diagram in PGcil SUSTAINABILITY REPORTS. At least Informal group meetings did not conduct to below transmission lines. Please provide Informal group meetings</td>
<td>The details have already been furnished vide Ltr dtd 7-11-2019 against original query Reg. no. PGcil/R/2019/50443 &amp; 50444 clearly explaining the techniques adopted and adhering to the process. The details are again given below: During screening and scoping (walkover survey) the informal group meeting technique including those under the line in addition to press release (publication in newspapers and Gazette of GOI) was used to ascertain the views of public and to inform all stakeholders themselves about the project details like:</td>

details during Screening, Scoping (Walkover survey) as per PGCIL/R/2019/50443 and PGCIL/R.2019/50444 RTI requests for below projects. Vemagiri to Chilakaluripeta 765 KV D/c line with 240MVAR switchable line reactor at both ends. Chilakaluripeta to Cuddapah 765 KV D/c line with 240 MVAR switchable line reactor at both ends. Chilajkaluripeta to Narsaraopeta 400 KV (quad) D/c line. Cuddapah to Madhugiri 400 KV (QUAD) d/C Line with 80 MVA.

(i) Complete project plan (i.e its route and terminating point and substations, if any, in between benefits etc.
(ii) Electrical safety provisions.
(iii) Measures taken to avoid public utilities such as schools, hospitals, etc.
(iv) Compensation details, if involved.
Most of the queries raised were pertaining to safety and compensation process which were duly answered and explained to all villagers/land owners during survey/construction.

This is for your information please.

Thanking you,

Yours sincerely,
For PSITSL
